

# EDUARDO GONZÁLEZ

Software Engineer | Backend Developer | Frontend Enthusiast

+53 55839297 @ eduardoprofe666@gmail.com eduardoprofe666.github.io Havana, Cuba

## SUMMARY

Experienced Software Engineer graduated from CUJAE with over 3 years of professional experience. Specialized in backend development using .NET, Spring Boot, NestJS, and FastAPI. Enthusiastic about modern frontend technologies, particularly Nuxt, Next, and Astro. Passionate about building robust, scalable solutions and continuously expanding my skill set.

## EXPERIENCE

- 05/2025 - Present**  
Havana, Cuba  
● **Backend .Net Developer**  
**Codes SRL**
  - Developing a global ecommerce platform using .NET and event-driven architecture with RabbitMQ.
  - Implementing file storage and distribution with AWS S3, AWS CDN, and MinIO.
- 03/2025 - Present**  
Havana, Cuba  
● **FullStack Software Engineer**  
**EMSI FARMA TECH**
  - Developing an Industry 4.0 MES/SCADA system using .NET, Tailwind CSS, WSO2 Identity Server, and Next.js.
  - Focused on improving legal workflow efficiency and case management.
- 03/2025 - 06/2025**  
Havana, Cuba  
● **FullStack Developer**  
**Ecos Productions**
  - Led the development of the Gesel system for the Cuban Law Firm Association, creating a legal management solution with Angular.js, Tailwind CSS, Express.js, and MySQL.
  - Implementing advanced manufacturing execution and supervisory control systems to optimize pharmaceutical production processes.
- 10/2024 - 06/2025**  
Havana, Cuba  
● **Backend Developer | Project Manager**  
**Medialityc**
  - Developed backend solutions for company projects and led full-stack development teams.
  - Oversaw technical decisions, team mentoring, and ensured excellence in project delivery across multiple teams.
- 05/2024 - Present**  
Havana, Cuba  
● **Software Engineer**  
**AICA+ Pharmaceutical Laboratories**
  - Developed a .NET and Razor Pages app for document management, integrating PostgreSQL and MinIO.
  - Implemented a Production Assurance Strategy system with Nest.JS and Next.JS, optimizing production by considering product constraints, resources, and storage limitations, using PostgreSQL and MongoDB.
- 12/2023 - 07/2024**  
Havana, Cuba  
● **Backend Django Developer**  
**AlsoftPro**
  - Co-developed the backend for the Contracting and Services modules at ALCOM, Havana's Water Company, using Django and Django Rest Framework.
  - Focused on building robust APIs to support company operations.
- 01/2023 - 03/2025**  
Havana, Cuba  
● **Teaching Assistant | Professor**  
**Faculty of Computer Engineering at CUJAE**
  - Taught first and second-year Computer Engineering courses: Introduction to Programming, Interface Design and Testing, Object-Oriented Programming, and Data Structures.
  - Also taught Web Programming to third-year Computer Engineering students.

## EDUCATION

- 04/2022 - 03/2025**  
Havana, Cuba  
● **Software Engineering Graduate with Gold Title Honors**  
**Universidad Tecnológica de La Habana José Antonio Echeverría (CUJAE)**

SKILLS

Backend

Asp.Net   Nest.js   FastAPI   Spring Boot   Express.js   Flask   Django

Frontend

HTML   CSS   Javascript   Typescript   Bootstrap   Tailwind   UnoCSS   Vue.js   Nuxt.js   React.js

Next.js   Astro   JQuery

Database

PostgresSQL   MySql   MS SqlServer   SqlLite   MongoDB   Redis

Others

Nginx   Docker   Kubernetes   Portainer   Git   Github Actions   GitLab CI/CD Pipelines   CQRS

Clean Architecture   Monolith Architecture   Microservices Architecture   AWS S3   AWS CDN   MinIO

Cloudinary   Strappi

LANGUAGES

Spanish  
Native    English  
Proficient
